

JOE RAICA EXCAVATING, INC.

To Whom It May Concern:

Joe Raica Excavating, Inc. and JR's Sand & Gravel started using Primrose products in early 2003.

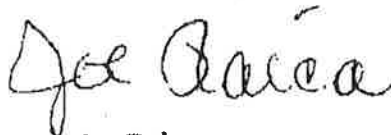

Since we began using the Armor Plate greases, our greasing frequency has decreased from twice a day to once a day with out worry if we miss an interval. Our Cat 980 loaders have had no pin problems and our rollers and other bearings are using far less grease.

These are the finest heavy duty, all purpose greases that I have ever found. We are using 327-C in the warmer months and the 357 for the colder months.

We ran a test with the Power Master 405 in one of our Cat 980 loaders, with in minutes; the loader with the 405 stopped smoking and ran much smoother and quieter. We've also had a 12% reduction in fuel consumption with additives.

In today's market we need preventative maintenance products that will improve out bottom lines and protect our capital investments. I feel that the Primrose line of products gives us this benefit and would recommend them to anyone.

Sincerely,

Joe Raica
