Dear Bob,

I just want to take a minute to let you know the experience I had with your "Primrose 406 Injector Perfector". As you know my 1996 Lincoln Towncar had over 326,754 miles on it before I used one of your 12 oz. bottles of injector cleaner. At that time, I was lucky if I averaged over 21.9 miles per gallon on the 98 mile daily round trip to the office and back. You brow beat me in trying the product and reluctantly, I agreed. No joke. After the first bottle my average mileage jumped to 23.2 mpg (roughly 6% increased mileage). Please put in an order for a full case of the Perfector. (And get to it soon!)

Best Regards,

Carl W. Stowe, CPA
