

750 Syn-O-Gen

Synthetic Tenter Frame Oil

DESCRIPTION:

750 Syn-O-Gen Tenter Frame Oil is an anti-wear synthetic ISO 220 lubricant designed to provide long life and superior protection against wear.

COMPOSITION:

Syn-O-Gen Tenter Frame Oil contains an additive performance package consisting of anti-wear additives, demulsifiers, rust, corrosion and oxidation inhibitors, and adhesive-cohesive additives in synthetic basestocks.

PERFORMANCE CHARACTERISTICS:

- Reduced wear in critical applications
- Prevents rust
- Excellent demulsibility
- Non-corrosive to yellow metals
- Superior oxidation stability
- Extends equipment life
- Extends service intervals
- Reduces power consumption

USES:

Syn-O-Gen Tenter Frame Oil is specifically designed for use on tenter frame oven chains used in the textile manufacturing industry.

TYPICAL SPECIFICATIONS:

Specific Gravity	.863
ISO Grade	220
Viscosity:	
SUS @ 100°F	1019
cSt @ 40°C	220
Pour Point, °F	0
Flash Point, °F	450
Four-Ball Wear Test	
mm @ 40 kg	.35
